

Verona Public Library

3D Printing Request Form

The Luzbot Taz 6 3D Printer prints 3-dimensional objects using PLA filament. It supports creativity of all sorts. To create objects for printing either use 3D modeling software or download files from thingiverse.com. Please fill out this form and return to info@veronalibrary.org along with your .stl file.

Files Must Be In .stl Format.

Please use a separate form for each request.
